IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kempshall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.

VOLUME XIV. MILWAUKEE DAILY SENTINEL, MONDAY MORNING, MAY 25, 1857. NEW SERIES.

THE DAILY SENTINEL.

PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Monday Morning, May 25.

Milwaukee & Mississippi R. R.—All Right!—Three Trains a Day.

We are requested by the officers of the Milwaukee & Mississippi Railroad company, to state that the repairs of their road are completed, and that the trains came through from Prairie du Chien on Saturday, all right.

This morning, and hereafter, the trains will leave this city as follows:

7:30. A. M., Madison Accommodation.

11:15., A. M. Day Express, going through to Prairie du Chien, connecting with boats up the river.

8 P. M., Night Express, going through, and also connecting with the boats.

The Company deserve great credit for their energy in completing so soon the repairs of the damages done to portions of their track by the freshet in the Wisconsin. No further difficulty is at all likely to occur.

In this connection, it may be well enough to state that the receipts for the first seventeen working days of this month were about $48,000; and now that the trains are running through again, the total for the month is likely to run up to $78,000 or over, against $61,000 for May of last year.

Excursion Train to Columbus.

A train leaves this morning on the Watertown Division of the La Crosse & Milwaukee Railroad, at 6 o'clock, taking invited guests and all others who wish to go, at a reduced rate of fare, thro' to Columbus, Columbia county.

We congratulate our many friends in that goodly and growing town on the fine prospects now before them, since they are in direct communication with "all the world and the rest of mankind;" and we also congratulate our citizens on having another of the prettiest towns and best agricultural sections of the State fastened to them with iron bands.

Wanted—A Corn Exchange.

It is a shame and a disgrace that we have not, here in Milwaukee, whence we are shipping the largest amount of wheat and corn of any port on the whole line of the lakes—whence we have al, ready this season shipped of these articles to the amount of about *a million and a quarter of dollars*, that we have no regular exchange, where, at stated hours of the morning, buyers and sellers can meet and effect their sales, exhibit their samples, and do all and singular the business which is thus done in other places. The present no-system is an injury to each individual business man, an injury to the business interests of the place, and elicits very uncomplimentary remarks relative to the character of our dealers from residents of other cities, who come here to make purchases, and find themselves obliged to wander about from pillar to post in search of holders.—The attempt was made last year, and worked well for a while, but somehow the exchange gave out toward the end of the season, and was not re-opened this spring—why, we do not know.—We do know, as we said, that it would be to the advantage of all concerned if such a place could be immediately established, and we trust that a movement may be made at once to that end.—Will not some of our dealers, who, as we know, favor this suggestion, take the lead in the matter?

Persistent Misrepresentation.

The *News*, whose sympathies, like its livery, are all "Border Ruffian," persists in its misrepresentations of the course taken by the Free State men in Kansas, and of the reasons by which they justify that course. These reasons were clearly and cogently set forth in the Free State Address, published a few days since in our columns. The *News*, however, which dare not let its readers see the truth, is careful to suppress this official document, but quick to retail all the pro-slavery slang which it finds, ready to its hand, in the St. Louis *Republican* and other Border Ruffian sheets. The *News* now states the Kansas question thus:

The fact is, plainly stated, that the 10,000 voters in Kansas, whose names are registered and who are anxious to have the question speedily and definitely settled at the ballot box, are divided into about 6,000 pro-slavery men to about 4,000 Free State Democrats. And if the 5,000 Black Republicans would vote on the 3d Monday of June, there would be 9,000 votes for a Free State Constitution, against 6,000, opposition.—Therefore if Kansas elects a Convention that will form a slave Constitution, upon the Black Republicans be the responsibility.

The *News* here ciphers out a "Democratic" majority of 2000 in favor of making Kansas a Slave State, but thinks this majority could be overcome if "the 5000 Black Republicans would vote" at the election in June. Why then don't they vote, as we obviously ask the *News*. The Free State men have again and again answered this question.—For the benefit of the *News* we re-capitulate the points of this answer.

First. They don't vote, because they don't recognize the authority of the Border Ruffian Legislature which ordered the election.

Second. They don't vote, because the Registry Law, under which the election is to be held, is a deliberate and carefully contrived *fraud*.

Third. They don't vote because that Registry Law, as executed by Border Ruffian officials, has *disfranchised* thousands of Free State residents, and made voters of thousands of *non-residents* Pro Slavery men.

Fourth. They don't vote, because if beaten at the polls, under this infamous Registry Act, by Border Ruffian and Pro-Slavery imported votes, they will appeal in vain to a Democratic Congress to right their wrongs.

These are the reasons why "the 5000 Black Republicans" whom the *News* assails, refuse to participate in the fraudulent election of next month. The Free State men in Kansas have again and again proffered their readiness to meet their pro-slavery adversaries on equal terms.—They are ready to vote, as between Freedom and Slavery, the moment they can be assured of *fair play*. But *until* so assured they will not leave their vantage ground, or peril the cause of Free Institutions by walking into the trap set for them by ATCHISON, STRINGFELLOW, & Co.

"THE DEVIL CAN QUOTE SCRIPTURE TO HIS PURPOSE."—The *News* of Saturday parades the subjoined remark of Gov. SEWARD's, as sustaining its position on the Dred Scott Decision:

"*I regard the Judiciary as the proper tribunal to expound all constitutional questions, and that to the Constitution and such expositions of it as are made by the Courts of Law, it is with me a principle of political action to yield obedience and support.*"—WILLIAM H. SEWARD in 1858.

There is hope for the *News* when it turns to WILLIAM H. SEWARD for authority and example. We trust that it will persevere in this well-doing.

CROPS IN WAUPACA COUNTY.—The New London *Times* of the 22d, reports winter wheat as looking very well throughout the county, and spring wheat as mostly in the ground and some of it already started considerably. With a favorable season the Farmers of Waupaca anticipate abundant crops.

LOOK OUT FOR THEM.—We are informed that fives altered from ones on the Commercial Bank, are in circulation, in this city and vicinity. They are exceedingly well executed, and calculated to deceive. It will be well to look out for them.—*Racine Journal.*

ALTERED NOTES.—Look out for Green Bay Bank, Marinette, Wis., altered from ones and twos to tens. They are neatly done, and well calculated to deceive.—*Chicago Dem.*, 23.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, May 18th, 1857.

Our weather is intolerable for the season. Instead of the genial warmth of May, we have the chilly winds and rain of February. It may be very good weather for the farmer, but it is exceedingly disagreeable for the city—especially for those who—following the custom of our city—have *moved* this May. Happening to be in that predicament, the inconveniences of the situation are the more sensibly appreciated. There was a year, among the years that are past—I believe it was 1816—in which there was a black frost in this latitude in every month; I hope we may not have a second like it.

Filibusterism in Nicaragua and Sonora, and Mormonism in Utah, seem to be on the wane.—"The patriot" Walker and another patriot of the like ilk named Grubb, or some such thing, from California—the one in Rivas, the other in Sonora—seem to be about meeting their deserved fate. The fearful responsibility of luring thousands—for they amount to thousands—of healthy people from their homes here, in order to depopulate the homes of other people—strangers to them and not asking or wishing their presence, is but feebly atoned for by the military execution which awaits their leaders. The crime of violating the laws of his own country and of nations, by levying war on his own private account against a friendly people—and the further crime, logically consequent upon the first, of merciless executions, now of some of his own suspected followers, now of some native chief of the country invaded who resists the aggressor—the converting to his own use of public and private property in the country he professed to regenerate and emancipate—the complete overthrow of law, order, and morality—all perpetrated in the name of Liberty—cannot, must not be permitted to pass uncondemned, much less to enlist sympathy in behalf of the promoter of all this evil, when his day of reckoning, bloody as that he has dealt to others, shall come.

And so of Mormonism. It is said that the biggest scoundrel, Brigham Young, has fled from his government, in fear of a revolt of his heretofore obedient disciples. This seems quite probable, for such a cruel and debasing system as that of Mormonism must provoke resistance at last; and if the disciples have risen successfully against the prophet, no second prophet can again establish the base and bestial despotism. If such an event have taken place, a great difficulty is removed from the path of President Buchanan, who must have been deeply exercised in spirit as to how those mountain brigands were to be dealt with. If they have themselves done justice upon their leader, the prompt appearance in Utah of a discreet, firm, and able man as Governor of the territory, appointed by the President, may spare much future trouble in managing that, at best, difficult population.

The news from China seems to indicate, on the part of the Chinese, a spirit of determined war, and one that will be conducted with little regard to the chivalry of war. Nor can one be surprised, or hardly shocked, that a great nation that for years has lived within its own limits, and pursued a policy peculiar and isolating, should resent, in every form of hostility, the invasion of a far distant race, who cross thousands of miles of ocean in order to force upon an unwilling people, much more numerous than themselves, though less warlike, their views of national duty and policy. If these Anglo Saxon invaders and robbers are stronger in the field than the Chinese, who shall say, that, under such circumstances, craft may not supply the want of strength, and if they cannot stand before their invaders in battle, they should not retreat before them, laying the country waste, and even poisoning the wells, after full notice given that they meant to adopt such defensive measures?

The "rules of honorable warfare" sounds very well as a phrase; but what are those rules? Who established them? and under what sanction do they exist? He whose home is wantonly invaded—whose property is destroyed—whose household is murdered or even worse—who shall require him to consider the exact measure of retaliation, so as to make it conform to the "rules of honorable warfare?" It were well for the peace of the world that the penalty of wanton invasion should always be certain destruction—whether by open war, or the secret mine, or the poisoned well.

Our country, it is hoped, will keep out of this Chinese *embroglio*, leaving to England, and possibly to France in alliance, to carry on the contest which they have provoked.

We shall soon begin to look for some tidings of the commencing to lay down the International Electric Cable. It is hoped that the *Fourth of July* may witness the interchange of messages between England and America, an hour or two old only. What a thought! and how would even the lightning-tamer—FRANKLIN—have started at it! Yet it will be.

The Minnesota Land Grant Railroads.

The St. Paul *Minnesotian* of the 19th, announces the passage by the lower House, of the bill "granting certain lands to Minneapolis and Cedar Valley Railroad Co., and also the Root River and Southern Minnesota Railroad Company," which had previously passed the Council.

Section 1 authorizes the Root River Valley & Southern Minnesota Railroad Company, to build, &c., a railroad from La Crescent via Target Lake, up the valley of the Root River to a point of junction with the Winona & St. Peter Road at Rochester, provided the said road is constructed to that point.

Section 2 authorizes the same Company to build, &c., a railroad from St. Paul and St. Anthony via Minneapolis to a point of junction at Shakopee city, and thence via Belle Plaine, Clarksville, Le Sueur, Traverse des Sioux, St. Peter, and Mankato, to the Southern boundary of Minnesota, in the direction of the mouth of Big Sioux River.

Section 3 confers all the powers and privileges of the Congressional Land Grant applicable to these lands of roads in the above Company.

Section 6 authorizes the Minneapolis and Cedar Valley R. R. Co., to construct, &c., a Railroad from Minneapolis in the direction of Faribault to a point of junction with the aforesaid road from St. Paul to the southern boundary of the Territory, towards the mouth of the Big Sioux River, thence from said junction from St. Paul via Faribault to the south line of the Territory west of range sixteen; and also confers all the rights and powers of the Congressional Land Grant on said Company applicable to said road, and requires the whole of said Railroad to be completed within ten years from March 3d, 1857.

Section 17 empowers the Minneapolis and Cedar Valley R. R. Co., and Root River Valley R. R. Co., to consolidate with any other Railroad Co., in this Territory or in any adjoining State or Territory.

The St. Paul *Advertiser* says "section 17 points towards Milwaukee strongly." We think so, too.

JOHN J. ECKEL.—This person, indicted with Mrs. Cunningham for the murder of Dr. Burdell, appeared in court a few days since, and through his counsel demanded a trial on the indictment for the murder of Dr. Burdell. The District Attorney said that for reasons which he could not state in open Court, he was unwilling to proceed with the trial, and accordingly moved that it be laid over until the October term, when he intended to enter a *nolle prosequi*. Mr. Eckel's counsel represented the hardship of thus sending his client out under suspicion of murder, without giving him a trial which should determine the question of his guilt or innocence. But the Court granted the motion of the District Attorney, against the protest and earnest remonstrance of Mr. Eckel's counsel.

THE CROPS.—Notwithstanding the backwardness of the season, wheat and grass are looking well in this section. We have taken pains to inspect a number of wheat fields in this vicinity, the past week, and in every instance the crop looks well—being even, of good color, and growing finely. The cold weather has not damaged wheat or grass, while it has kept fruit back till there is every prospect of its escaping the frost, in which case there will be a large quantity of various kinds of fruit raised in this neighborhood. —*Whitewater Register.*

An Honor that we Dreamt not of.

The *News*, which has "never read" the remarkable opinion of the City Attorney, in the matter of Alderman GRELLICH vs. the City Charter; of Alderman GRELLICH vs. the City Charter; which has "never had a copy of it," and which has "expressed no opinion upon its merits," is nevertheless so well satisfied of its irresistable logic and impregnable law, that it graciously proposes to publish the document in its columns with our "answer to it," so as to give its readers "the two productions, side by side." We feel highly flattered by this magnanimous offer, and, even at the risk of displacing Bombastes' boots, or encountering Don Quixote's windmill, hasten to avail ourselves of the opportunity to appear in print, "side by side" with the Counsel Extraordinary to the Corporation, in the select columns of the *News*. Accordingly we beg to file our answer to the opinion in words following, to wit:

No Alderman shall be a party to, or interested in any job, or contract with the city or any of the Wards; any contract in which any Alderman may be so interested, shall be null and void; and in case any money shall have been paid on any such contract, the Common Council may sue for and recover the amount so paid, from the parties to such contract and the Alderman interested in the same. *City Charter*, Chapter III, Section 12.

It being admitted that Ald. GRELLICH is proprietor of the *Sea Bote* and that the *Sea Bote* was selected to do the printing jobs for the city by the vote of Alderman GRELLICH, the public will at once discover the pertinency and all-sufficiency of our reply. It is proper, however to add that it is not original with us: but was first framed by the Legislature of this State and afterwards approved and endorsed by the People of this city. It is against the Charter, the Legislature and the People of Milwaukee, therefore, that the City Printers and the City Attorney, the *News*, the *Sea Bote* and "General Foorn," are now leagued. The *Sentinel* is bound to see "fair play" between the belligerents.

ARSON AND ROBBERY.—The New London *Times* of the 22nd inst. gives the following account of the burning of a School House and robbery of a Post Office in the town of Lind, Waupaca County:

Lewis Hammond, who had resided in that town for about a year, and who had, as facts have now shown, carried on a system of petty thieving, lately formed an alliance with a person named Robert Wilson, recently from Canada. The Post Office kept by A. Archer, Deputy P. M., was the first thing on the order of their arrangements; they visited the premises on the day previous, on pretence of getting letters, creating no suspicion. In disguise, and with blackened faces and and g blacker hearts, they carried shavings into a new and well finished School House, erected last season at a cost of $300, set it on fire, and at the proper time raised the alarm at the post office and nearest dwellings there.

The citizens hastened to the fire, when the villains went to the office, burst open the door, and laying violent hands upon the persons of Mrs. Archer and a son, about 12 years of age, with clubs which they brandished over their heads, demanded their money or their lives, but releasing their hold somewhat, they commenced the work of plunder. Mrs. Archer and her son escaped. The thieves carried off the Post Office funds and key, a silver watch, and $100 private funds. Suspicion immediately fastened upon the two persons named above, and before daylight they were arrested, and on the following Monday morning, an examination was made before Esq. Streite. Those having the prisoners in charge picked out of them a confession of a large portion of the transaction. The key and watch were recovered.

The prisoners were placed in the custody of the Sheriff, but Hammond made his escape and is now at large. A reward has been offered for his apprehension. Wilson is in jail at Plover to await his trial.

THE MURDER IN JEFFERSON COUNTY.—The *Jeffersonian* brings us the following additional particulars of the shocking murder in Jefferson County last week:

An inquest was held before a justice of the Peace, and a *post mortem* examination made upon the body by Dr. Winslow, of Fort Atkinson, which resulted in the jury bringing in a verdict of murder against Joseph Perry; and the Justice making out the commitment, handed him over to to the Sheriff as aforesaid.

The accused is a strong muscular made man, about 5 feet 8 or 9 inches high, of a sandy or fair complexion, well shaped head, clear blue eye, and is about 45 years of age, and is not the person we would suppose to be guilty of such an atrocity. Perry has three children—two boys, one 17 and the other 18, and a girl 10 years of age.—and the murder was committed, but the prisoner denies. Weatherby was a man of moderate means, and leaves a wife and children. There was some excitement felt in our village on Monday morning, the time Perry was lodged in jail, and throughout the day, as many were here from other towns around Jefferson; but it is now dying away, and the poor unfortunate victim of passion will be left unmolested, until the Circuit Court, which meets on the fourth Monday of September next, decides his fate.

HIGH WATER IN LAKE ST. CROIX.—The St. Paul *Advertiser* of the 16th says:

Lake St. Croix is very high at this time—the water being some 12 feet above the winter mark. During the gale of Friday and a portion of Saturday, much damage was sustained. We heard of a number of rafts being broken to pieces, causing great loss to the owners. We understand Messrs. Smith & Whiting, of Taylor's Falls, are among the sufferers. We have heard their loss estimated at $2,000. For a time, on Friday, the new mill of Messrs. Clay & Sawyer, was in great danger in consequence of the floating logs in the lake, but understand they succeeded in protecting it without sustaining serious damage. The unfinished levee is mostly covered with water at this time. The extent of the damage cannot be ascertained until the water recedes. The new building of Messrs. May & Forestall, at the foot of Chestnut street, was in great danger for a time—the waves and drifting logs in the lake rushing against it with great force—but though the most energetic exertions on the part of the proprietors, they succeeded in throwing up a sufficient protection to insure them against very serious loss. Several boats in port were compelled to tie up until the gale subsided. We are assured that such high winds are unusual at this point—this being the severest gale experienced for many years.

Grain Prospects.

From numerous inquiries which we have made of farmers residing in different sections of the country, we learn that about the usual amount of wheat has been sown this spring, while of barley and oats, a largely increased quantity of seed has been put in. There will be less corn planted than usual, owing to the cold and backward spring, although corn planted in the first week of June will do full well as earlier plantings, and the fact that the season is late, should not deter the farmer from planting the usual number of acres, as every indication goes to show, that the grain will bear a high price this coming fall and winter; As regards potatoes we learn that the number of acres planted has been largely increased, owing to the high price they have brought for the past year or two. Winter wheat looks very fine, and although but little was sown last fall, still we hope the success this season will warrant a large increase of the amount in the future. Taking everything into consideration, and summing up the amount of all the various kinds of spring grains sown, we think that the number of acres of land in crops will considerably exceed any previous year. From present appearances, Rock county will maintain her reputation as the largest grain growing country in the state, if not in the United States.—*Janesville Standard.*

RAILROAD—RIVER—WEATHER.—We learn from Conductor Olin, that the work at the break on the Wisconsin bottom is completed, and the cars will pass over in a day or two. Although some interested individuals have circulated reports that the bridges and road this side of Boscobel, were totally destroyed, we have the pleasure of informing them, and all others, that it is entirely false. The bridge withstood the great rush of waters of "Old Wisconse" and the Kickapoo, which for many years have not been so high as was the few days past. In one or two places the embankments were washed away, in all some four hundred feet. A great number of men are engaged in repairing the damages.—Meantime daily communication, is had by boat, to the trains, above the break, so that no detention is made by the accident to the road. The steamer A. McGregor, came down from the train yesterday morning, with some 500 passengers and their baggage. The rivers are rapidly falling at this point.

The weather for the past few days has been delightful, the trees budding, flowers blooming, grass growing, and "sass" coming up in sight.—We are informed by the farmers that the wheat crop in this and Grant Co's. and across in Iowa, was never more promising.—*Prairie du Chien Courier, May 21.*

PINE LOGS.—The largest lot of logs ever floated down Rock river, for any one person, is now lying in the dam above the mill of A. K. Norris, of this city. The number is *ten thousand*, from which *three million feet* of pine lumber will be manufactured.—*Janesville Standard.*

The Late Wm. A. White.

The remains of William A. White, which were lately discovered at Milwaukee, were brought to this city yesterday, and taken to Watertown, where they were deposited in the burial place of his family.

Mr. White was born at Watertown, Sept. 2, 1818, and was the only son of Abijah White, a wealthy citizen of that place, who died in 1845, and whose children, besides his son, were six daughters, one of whom, now deceased, was the wife of Professor James Russell Lowell, of Cambridge. The rest of the daughters are still living. One of them is married to Col. Richardson, Mayor of Worcester, and another to Charles W. Elliott, author of the recently published History of New England.

Mr. White graduated at Harvard College in 1838. Among his classmates were William Aspinwall, Wendell T. Davis, Charles Devens, Rufus Ellis, William W. Story, Nathan Hale, Jr., and Professors Eustis and Lowell of Harvard University. Upon leaving College he entered the Law School, and afterwards studied in the office S. R. Curtis, now one of the Justices of the Supreme Court of the United States. He was admitted to the bar, but practised law for only a brief period, as he soon, with characteristic ardor and energy, threw himself into the Anti Slavery and Temperance movements, in behalf of which he was for several years conspicuous as a zealous and effective speaker and writer.

In 1843 he made an anti-slavery lecturing tour to the West, in company with George Bradburn and Frederick Douglas, and while in Indiana and Illinois, was repeatedly assailed by mobs, and exposed to great personal danger. On one occasion he was severely injured in the head by stones and brickbats. After his return he became editor and publisher of the Excelsior, the New Englander and the Washingtonian, temperance journals, which he conducted with vigor and ability, and kept in existence at the expense of his own private fortune. In 1844 he removed to the West, and settled in Madison, Wisconsin, where he soon became distinguished as an able and public spirited citizen. At the time of his death, we believe, he was Chairman of the Republican State Committee. In 1855 he married a daughter of Justin Butterfield, of Chicago.—He had been previously married, in 1840, to Miss Harriet Sturgis, of Roxbury, who died in 1850. Mr. White went from Madison to Milwaukee to attend the State Agricultural Fair. On the 9th of October, he went to Chicago to see his wife, who was there on a visit to her mother. He returned to Milwaukee early on the morning of the tenth, took breakfast at his hotel, and walked out immediately afterwards. He was quite unwell at the time, and while at Chicago, had complained of severe headache and nausea. He was not in the street by an acquaintance at a short distance from the hotel, and was not again seen alive. It appears that he continued his walk outside the city along the Lake shore for about two miles, until he reached a solitary bluff overlooking the water. Here he probably was seized with a fit or disease of the heart, to which he was subject, and died while seated on the edge of the bluff looking down upon the lake. The body was found about a fortnight ago, by a boy, at the foot of the bluff, to which it had been brought by the fall of a portion of the bank.

There was nothing whatever in Mr. White's circumstances or character that rendered it probable that he had committed suicide. Notwithstanding the reports to the contrary at the time of his death, it has been ascertained by his administrators that his pecuniary affairs were in a good condition. His own property, inherited from his father, would have paid his debts twice over. His wife possessed in her own right a very large property,—an ample fortune, in fact. He was singularly happy in his domestic relations and was devotedly attached to his young children, for whose sake, in fact, he had been led to settle in the West. It is not to be presumed, without evidence, that he would without cause voluntarily desert them by taking his own life.

Mr. White possessed fine natural abilities. He was a fluent and impressive speaker, and wrote with ease and pungency. He had a keen wit and a strong sense of humor, which frequently did him good service in the hot debates in which he was engaged as an anti-slavery and temperance orator. In character he was in the highest degree frank, manly, generous, and upright. He was incapable of a mean or selfish act, and his first and only rule of action was to do what was right, without regard as to whether it was expedient. When satisfied that he was on the right track, he went ahead with a constitutional courage that amounted to absolute fearlessness. As eminently brave, sincere, and honest man, who earnestly sought to do his duty, and to benefit his fellow men at the cost of much personal sacrifice to himself, he will long be remembered with affection and respect by an unusually extensive circle of friends and acquaintances.—*Boston Traveler, May 19.*

The Latest and Meanest Development of Slavery.

The latest development of the spirit of slavery is always its meanest development. Everything "progresses," and according to its nature; and slavery's nature being hideous, all that flows from it is desperately wicked. Every step that it takes is downward, and in the cause of man it is, as it were, always on its knees.

The public are aware that their is a *free negro school* in the city of Washington. Among the trustees is Dr. D. D. Gale, who is the oldest examiner in the Patent Office, with a salary of $2500. This office has been obliged to resign, in order to avoid removal, because he is a trustee of the negro school. The Buchanan administration thus announces to the world that it will not allow free colored children to be educated, if it can prevent it, in the capital of the nation, a place bearing the name of Washington! If an Office-holder there shall be so much of an enemy of Democracy as to labor for the spread of knowledge among men, he must be removed. Perhaps he ought to hold himself fortunate if he is allowed to escape from the hand of the freeze with his life, after being thus offended against the great Democratic principle, that heaven made one branch of the human family to be slaves, whence it follows that to remove that surest protection to slavery, ignorance, or to lessen or fix a removal, is a species of practicable blasphemy. Did not the ridiculous State of Virginia lately imprison a woman for teaching colored children how to read? And if a woman can thus be treated, what ought to be the punishment of a man guilty of the same offence against slavery?

This attempt of the Democracy to destroy this school for free colored children in the District of Columbia, will excite peculiar indignation in Boston; for, but a few days ago, our liberal citizens gates this morning arrived at 6.75; 1350 common, and the Indiana and Wisconsin at 7.00; and good do at 7, 200 extra Ohio and Wisconsin at 7.05 and 200 double extra white wheat Michigan, Ohio and Wisconsin at 7.10.

Corn—Wheat market active and steady. Sales 4,000 bu Illinois spring at 1.03—and 2,000 bu Milwaukee club on private terms. Corn a shade firmer, with good demand. Sales 14,000 bu new at 47c, and 2000 on old at 50c. Oats steady, and good business doing. Sales 3,000 bu, in two parcels, at 39½@40c. Barley firm. Small sales at $1 50.—*Republic*, 20.

New York Money Market.

The demand for money is on the decline; and the supply is rapidly increasing. Already it is difficult to place money out on call on satisfactory securities, and some loans are making at 6 per cent, to which the market generally seems tending. Priveless paper 60 a 90 days, is now 7 to 8 per cent; and 4 a 5 months, 8 a 9 per cent; while second class paper range from 8 to 9, and dates.—Loans generally 7 per cent.

This bank statement proves to be a favorable one, and show the banks to be in a sound position. Their increase of specie is actually more than the average shown. There must be over thirteen millions of dollars in banks; and as specie continues to flow in from the interior and out of the treasury, the corners this week will be fully covered by the receipts. The Argo brings $155,000 in specie.—*Evening Post*, 19th.

☞ The Montreal *Gazette*, of the 19th inst, announces that the *Prince of Wales*, "the first of a line of through state," "the first of a line of through passengers propellers, fitted up not only for freight, but for passengers as well, will leave Macpherson & Co.'s wharf at the Canal on the 20th, for Chicago, calling at Ogdensburgh, Detroit, and Milwaukee. We hail this as an earnest of a good time coming, and wish the *Prince of Wales* and the other vessels to be employed on this line all the business they can do and good pay for it."

Syracuse Journal, 19th. This damaged vessel will soon be repaired, and will take her place in the line within ten days at most, as good as new. The carpenters are busy at work upon her in the dock.

The propeller Plymouth, in coming the hull of the propeller Falcon, moored slowly down the river last evening, in tow of the tug Catch Crabaug, with the sad mournful of the late Yankton losses. The hull of the burnt vessel was covered with a dark pall, from the bed of the deck to the water's edge, and the mournful escort, with flags at half mast, presented a solemn and impressive appearance.—*Detroit Free Press*, 19th.

The Falcon was burned on Lake Michigan, on the night of the 14th inst., while on her way from Milwaukee to Detroit, with a cargo of wheat. She was owned by Capt. Rice, of Detroit, and was insured for $5,000 in the Buffalo Mutual Insurance Company.—*Buffalo Express*, 19th.

The schooner Wyoming was loaded yesterday, May 21, at S. C. Stockwell's warehouse, with fourteen thousand bushels of wheat for Kingston.—*Racine Journal.*

POLICE COURT: MAY 23.

BEFORE OLINTON WALWORTH, POLICE JUSTICE.

Michael Meyers, intoxicated, (an old offender) was sent to jail for 20 days in default of $5 fine.

William Miller, fast driving on bridge, fined $2.

Peter Terrill and Peter Willis, were committed in default of $50 bail for their appearance at the next term of the Circuit Court, on a charge of stealing property of the value of 75 cents, from the house of Barnard Fanning.

☞ANOTHER CALL FOR A HOUSE OF CORRECTION.—Two little boys, named Peter Willis, and Peter Terrill, the former 9, and the latter 11 years of age, were brought before the Police Justice on Saturday, on a charge of stealing property to the amount of 75 cts. from the house of a man named Barnard Fanning, and were sent to the county jail in default of $50 bail for their appearance at the Circuit Court. These boys, if convicted, will be sent to the State Prison; thus making thieves of them, who in their very childishness may have been led into this first step without any serious criminal intentions. It is a pity, ma'a sin, to send these youths, who are not yet old enough to comprehend the nature of their offence, to a loathsome prison, among criminals of the darkest dye, there to be degraded and corrupted, instead of having a place where wholesome correction would be administered to them, where they might be reformed, and their youthful minds impressed with feelings of honor for truth, and honesty, then they might become honorable men, and good citizens; but so sure as you send them among criminals you criminate them, you compell them to be criminals, for "when among Romans we must do as Romans do," and fifty chances to one, that they will be hardened thieves, ready to commit the most daring crimes. We trust that before long we may have a proper place of correction for such youths.

STREET COMMISSIONERS' ORDERS.—The Third Ward Aldermen order Huron St., from East Water St. to the river, to be graded, and covered with gravel 18 inches deep. (Why not have it paved? This is at the east end of the new bridge, and requires paving more than any other place in the ward.)

The same Aldermen declare lots 1, 2, 3, 4, 5 and 6, in block 26, a nuisance, and they are ordered filled in 21 days from the 23d.

AMERICAN HOUSE—FOND DU LAC.—We learn by a gentlemen of this city, who has been stopping for a week or two at this very popular house in the "Fountain City," that it is completely *thronged* with guests every day. The house has been recently fitted up in good style, and being located at the Steamboat Landing and Rail Road Depot, saves the expense of an omnibus, and hence the house is thronged with visitors. Mr. K. FERRIMAN, the proprietor, is every inch a gentleman.

PLANS FOR THE STATE UNIVERSITY.—We learn by a note from the Chancellor to Mr. E. T. MIX, Architect, of this city, that the Regents have decided upon adopting a plan furnished by Mr. TISDALE, of Indianapolis, for their new edifice; but they are so pleased with Mr. MIX's plans that they have requested him to allow them to retain them for the University Art collection, and have appropriated $50 to reimburse him in part for his trouble.

NARROW ESCAPE FROM DROWNING.—A young lad, a son of Dr. Greves, fell into the river on Saturday, in the rear of the *Democrat* building. He was rescued by some sailors who were close by, with no damage done, but a good bath. The *Democrat* says, on getting out Young America coolly turned around, and said he was "much obliged" to his rescuers. We thought he was.

ACCIDENT.—On Saturday a young man (whose name we have not learned) had one of his hands taken off at the wrist, by accidentally bringing it in contact with a rotary saw, in the Car shop of the M. & M. R. R.

MILITARY.—The Light Guard turn out at half past 8 o'clock this afternoon, for Battalion Drill and Evening Parade. The attendance of every member is specially requested.

A Card.

The attention of the undersigned has been called to certain resolutions, purporting to have been adopted by Supply Hose Co. No. 1, and published in the *Wisconsin* and *American*, charging him with unwarrantable language and conduct towards that Company, at the alarm of fire on the night of the 15th inst. In justice to himself and to the Fire Department, the undersigned begs leave to say, that having learned the origin of the false alarm on the night in question, and most anxious to prevent any possibility of collision between the Firemen and the Police, he hastened to meet the Companies coming from the upper part of the City and to send them back to their respective quarters. Supply Hose was one of these, and in directing them to return to their house, the undersigned conceives that he was in the strict discharge of his duty, and certainly disclaims all intention of any design to "abuse," or "insult" them. That he did not exceed his authority, or interfere too promptly, or peremptorily, members of Engine Co. No. 1 (and among them, their late Foreman, Gen. KING,) will readily testify.

FRANK DAVLIN,
First Assistant Engineer.

MILWAUKEE, May 23d, 1857.

TAKE HEED.—At the Massasoit House, Chicago, may be obtained until July, Old Dr. James' wonderful and celebrated extract of Cherrible Indica. His son-in-law, Dr. Thomas Tilton, will supply you with either, personally, or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats. We know this to be a fact. Try it and live.

P. S.—By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four stamps (12 cents) a recipe will be sent to return, free of charge, to any part of the Union. DR. TILTON,

CITY LAND OFFICE.
NEW additions to our city are now offering great inducements to all who want and should secure themselves a home, and to all who want to make investments for their children. It is by making investments in Lots while they can be purchased at a low price you will become rich. Call at our office and see how wealthy one with small means can become in a few years. Remember, we do not say *when they were cheap*. Some six or eight years ago you could purchase One Rod of Lots in the old First Ward and 40th Ward, at from three to five hundred dollars; the same lots are selling, and worth this day, five and six thousand dollars per Lot. The same chance is now offering itself again; we have two new additions, one in the First ward and another in the fifth ward, both of which in our opinion offer superior inducements to any other additions which have yet been offered this spring, and we would say to all who are in pursuit of Lots for investment, and for homes, not to be in a hurry. Wait for about twenty or thirty days and we think we will show to the public of some property which will, and must convince you that its location for Health, Scenery and Advantages is unsurpassed. The plats of said property are now under way, and as soon as they are ready we will give notice and circulate them through the city. We are going to sell the property on such easy terms that the poorest man, or woman, or boy, can purchase a Lot. All the money that will be required down will be twenty per cent, the balance in 1, 2, 3, 4, 5, 6, 7 and 8 years, and all we have to say is, keep prepared for the Grand Rush opening which will be ready by the 1st or 15th of June.
may19 OGDEN & WALL.

City Land Office.
THE great sale of lots in that go-ahead Portage city I remember takes place June 12, 13, 14. The lots to be sold are valuable for a new city. It holds out great inducements. All who want to make a speculation should go and see it for themselves. You can leave here in the morning on the La Crosse cars and return in the evening.
This is a great chance for investments and for building up a large business.
Maps of said city are now ready at our office, on Michigan street.

Great and Extensive Sale of Lots in Portage City, Columbia Co., Wis.
TWO HUNDRED LOTS.
THIS CITY IS FIRST RATE in every desirable particular, and it will contain inducements to all who are now emigrating to Wisconsin. It contains a population of from ten to twelve thousand. It is handsomely built up, and has all the conveniences and comforts that any other city in the West has. There are already two Banking Houses and several Exchange Offices there. The city, in a few months, will have Gas and Water works. It contains as fine brick store houses and dwelling houses as you will find in any Western city, and its location and situation cannot be excelled. It is situated on the mouth of the Canal. It will, in a short time, have from three to four Railroads. The La Crosse Railroad is now completed to Portage. In fact, I know of no city out of Milwaukee, which holds out such inducements and its prospects so flattering as Portage City; and I won't say so much, but leave it to you. Come and see, and by reading a house, to go and visit Portage City and examine for yourselves. The La Crosse cars leave this city twice every day. The undersigned is going to sell on short terms and long, a choice lot of land and business property. Maps of said City are now at the City Land Office, and any one who desires any other information as regards the land sale of lots in Portage City, if they will call on me I will give them all the information they want. They list of lots I will publish in a few days. They will be sold on very easy terms.
